My name is Rachelle and I am the owner of Sweet Baby Cakes. I have been making cakes and cupcakes for my kids and close family for 9 years and started my own business in 2021. I am carrying my grandmother's legacy of making reasonable priced cakes for all occasions. I have always looked up to my grandmother and her artistic abilities to create the cakes that she has done over the years. My grandmother has always wanted to create a business for her cakes, but was not able to. So I created a business using the name that my grandmother wanted to call her own business.

I went to Owen's Community College where I studied to become a Radiologic Technologist. I Learned everything that I know from either my grandmother or by figuring it out myself. All the recipes that I use for my cakes are either recipes that have been passed down to me or ones that I have found and enjoyed. I am able to create any flavor that you are wanting for your special day. I am learning new skills as I go to create the perfect cake for your wedding day!

My name is Heather Barefield and I began as a mom with a love for planning parties of all sorts. I started out small with birthdays, baby showers and graduation parties but quickly realized my love for wedding decor and planning. Within minutes of meeting with a client the ideas start flowing as far as decor and I am excellent at hearing a small idea and bringing it to life. With the help of a few wedding and event planning classes I have been able to strengthen my ability to provide a memorable experience to each and every client.
